**LETTER OF DEFICIENCY #WELL-03-01**

Subject: Pump Installer License

Dear Mr. Maciejewski

It has come to the attention of the New Hampshire Department of Environmental Services ("DES") that you are holding yourself out as a pump installer under the business name Prestige Plumbing & Heating, and you are advertising pump installations under the business name Conval Plumbing & Pumps in the Verizon yellow pages.

Please be advised that in order to install well pumps in the State of New Hampshire a person must first obtain a pump installer license from the NH Water Well Board ("Board") as required by state law RSA 482-B.

For your information, pursuant to RSA 482-B:16, IV, "Any person shall be guilty of a misdemeanor who knowingly engages in water well construction or pump installation or offers to engage in water well construction or pump installation or advertises or holds oneself out or acts temporarily or otherwise as a water well contractor or pump installer without first having obtained the required license under RSA 482-B:5".

In addition to any criminal penalties, DES is empowered to levy an administrative fine for violations of RSA 482-B and the rules of the Board. The maximum fine for engaging in the business of well pump installation without first having obtained a pump installer license is \$2,000.00 per violation.

If you are installing pumps, you are required to cease doing so until such time as you have obtained a pump installer license from the Board.

We have enclosed a pump installer license application.

If you have any questions, please call Rick Schofield at 271-1974, or Harrison Mackey at 271-2410 for information regarding the license application process.

Sincerely,
